Correction Table

Emission Point	Test Parameter	Date Tested	Old Value	New Value	Reason
Point 12	Nitrogen Oxides	8/05/2013	0.64	0.40	Requirement for oxygen correction factor to be applied removed by Licence Conditions L3.4 & L3.5 (Licence Variation 25/11/13)
Point 13	Nitrogen Oxides	9/05/2013	0.74	0.49	

* Statute limit as per Schedule 4 of POEO (Clean Air) Regulation

Note 1: Elevated NO_x concentration an artifact of post testing oxygen concentration correction.
