

Bringing eXcellence

Qenos – a pioneer in Australian plastics manufacturing and processing for more than 60 years now offers its customers access to a wide range of local and international specialty and sustainable polymers and chemicals from global manufacturers through its specialised distribution arm – exsource.

We work closely with our customers to ensure our products meet their exacting requirements for both quality and performance.

Our products are widely used in numerous applications across a broad spectrum of industries in Australia and New Zealand, including the following key end markets:

- Consumer and Industrial Films
- Fluid engineering (pipes & fittings)
- Building and construction (residential & infrastructure)
- Food Packaging (flexible and rigid)
- General Industrial
- Consumer housewares

Our product range includes, but is not limited to:

Product	Polymer Type
rHDPE	Mechanically Recycled High Density Polyethylene
rLDPE	Mechanically Recycled Low Density Polyethylene
rPP	Mechanically Recycled Polypropylene
rPET	Food contact, Recycled Polyethylene Terephthalate
PBAT blends	Certified Compostable Polymer With Bio-based Content Option
ABS	Acrylonitrile Butadiene Styrene
ADDITIVES	Antioxidants & Stabilisers
COC	Cyclic Olefin Copolymer
EBA	Ethylene Butyl Acrylate
EPS	Expanded Polystyrene
EVA	Ethylene Vinyl Acetate
GPSS	General Purpose Polystyrene
HIPS	High Impact Polystyrene
LFT	Long Fibre Reinforced Polymers
NYLON 6	Polyamide 6
NYLON 66	Polyamide 66
NYLON 12	Polyamide 12 (filled only)
NYLON blends	Polyamide 612, Polyamide 6.66
PB-1	Polybutene-1
PBT	Polybutylene Terephthalate
PC	Polycarbonate
PC/ABS	Polycarbonate / Acrylonitrile Butadiene Styrene alloy
PE – HDPE	High Density Polyethylene
PE – LDPE	Low Density Polyethylene
PE – LLDPE	Linear Low Density Polyethylene
PE – mLLDPE	Metallocene Linear Low Density Polyethylene
POM (Acetal)	Polyoxymethylene
PP – CoPP	Copolymer Polypropylene
PP – HoPP	Homopolymer Polypropylene
PP – Random	Random copolymer Polypropylene
PPS	Polyphenylene Sulfide
SAN	Styrene Acrylonitrile
TACKIFIERS	Hydrogenated hydrocarbons
TIE LAYERS	Anhydride Modified Polyolefins
TiO2	Titanium Dioxide
SBS	Styrene Butadiene Styrene rubber
TPO	Thermoplastic Polyolefins – ex reactor

eXsource proudly represents products from a number of major global manufacturers and our range is always growing. For any product requirements not listed above, please contact your eXsource account manager or Customer Service on 1800 331 230 (AU) or 0800 440 901 (NZ)
